### **DETAILED ACTION**

Claim 11 is not complete and therefore the examiner has not considered it on the merits.

Appropriate correction is requested.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 5, 7, 8 and 10 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by U.S. Patent No. 5,799,086 to Sudia.

As per claims 1 and 10, Sudia discloses the limitations of these claims (see at least the abstract).

As per claims 2, 7 and 8, Sudia discloses these features (col. 12, lines 52-67).

As per claim 5, Sudia discloses this feature (col. 13, lines 1-21).

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 2132

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sudia as applied to claims 1, 2, 5, 7, 8 and 10 above, and further in view of the examiner taking official notice.

As per claim 3, Sudia does not disclose the limitations of this claim. The examiner, however, takes official notice that it is well known in the art to include this feature in the instant invention.

#### ***Allowable Subject Matter***

Claims 4, 6, 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***
